## 4 RFT Specifications

---

### 4.1 Overview

The Township is seeking qualified bidders to manufacture and deliver steel plates to be used as an alternative to sand cover at the Scotch Line Landfill. The steel cover plates must be durable, be made from solid steel with no holes and be equipped with hooks that the bucket of an excavator will use to lift the plate.

A photograph of an example cover plate is included as Appendix I to this RFT for reference. The Township is flexible with the final design of the plate and does not require the final product to reflect this photograph precisely. The plates must meet the specifications in Section 4.2.

### 4.2 Specifications

The Successful Respondent will manufacture and deliver to the Township three (3) steel cover plates consisting of a frame, a solid face plate and hooks for lifting with an excavator.

Cover plates are to be 3m wide x 6m long (10 feet wide x 20 feet long) including the frame.

Cover plates are to be constructed with a frame to provide stability such that the plates don't warp or bend. The frame is to be constructed such that if the cover plates were stacked one on top of the other, the hooks on the bottom steel plate would fit fully under the steel plate placed on top of it. The frame may be constructed of tubular steel.

The face plate must be made of a solid 2cm (3/4") thick steel plate with no holes/grating.

All exposed surfaces shall be painted using an industry standard zinc rust inhibiting paint/primer, bright yellow in colour.

A minimum of two hooks must be installed in the middle of the cover plate, similar to the photo shown in Appendix I – Sample Photos. The hooks will be used by an excavator to lift the cover plate and so should be constructed of durable material and attached in such a fashion that the hook will withstand the torque created by the lift of the excavator and the pull of the plate away from the machine. The excavator bucket is equipped with teeth, and as such, the hooks must be spaced such a distance apart that the hooks will fit between the teeth. Diagrams of the excavator bucket with measurements are included in Appendix J.

The maximum weight of each plate may not exceed 5,500kg (11,900lb).

The plates must be delivered to the Scotch Line Landfill, located at 2038 Scotch Line Road, Minden ON by October 31, 2023. An excavator and operator will be available to assist with unloading.

### 4.3 Respondent Experience

The Respondent shall submit Appendix B – Experiences, References & Contingencies that provides three references who can speak to the Respondent's ability to provide the services requested in this document. With Appendix B, the respondent shall also

provide a brief contingency plan detailing how materials will continue to be provided to the Township for the duration of the contract in the event that equipment failure, staffing issues or supply shortages impact the Respondent's operation.

#### 4.4 Respondent Responsibilities

The Successful Respondent will be responsible for:

- Supply of all equipment and materials required to fulfill manufacturing of the steel landfill cover plates described within.
- Delivery of steel cover plates to the Scotch Line Landfill by October 31, 2023.

#### 4.5 Township Responsibilities

The Township will provide:

- An excavator and operator to assist with unloading at the Scotch Line landfill.

#### 4.6 Pricing Requirements

Respondents shall provide a unit price per plate and a delivery fee as per the requirements of Appendix F – Price & Delivery Schedule.

Any change work orders or work additional to this RFT shall be agreed to by the Township prior to the execution of the proposed works.

During the award process the Township reserves the right to exclude any component of the RFT.

#### 4.7 General Instructions

You are able to provide the item as specified - indicate **YES** in the Respondent's Compliance box.

You are not able to provide the item as specified - indicate **NO** in the Respondent's Compliance box.

Where minimums are called for, the item must meet or exceed the capacity, size or performance as specified, unless an alternative is allowed. This specification may list only the major details for the specification items. Therefore, it is the Respondent's responsibility to deliver fully equipped items with compatible components to provide dependable efficient service:

#### 4.8 Other Instructions

Responses to this RFT must include Mandatory Appendices noted as "Mandatory Completion" and/or "Mandatory Submission".

## **4.9 Cooperative Purchasing**

The Successful Respondent agrees to allow public agencies with similar needs/interests to participate in this contract.

Additional participating agencies may opt into a contract with the successful respondent for procurement of services described in this RFP based on the terms, conditions, prices and percentages offered to the Township of Minden Hills with changes negotiated as required, due to location and quantity of work.

This piggyback clause is intended to be a means of promoting cooperative purchasing efforts with the public sector, and to provide additional value to the successful respondent. Any cost savings associated with cooperative purchasing shall be separately identified within the tender document.

## 5 Evaluation Process

---

Respondents acknowledge that submissions are likely to be drafted using a diverse range of approaches and, therefore, may not be readily comparable to one another. As a result, notwithstanding the application of consistent evaluation criteria as identified below, the Township shall use professional discretion in evaluating proposals.

The Township retains the right to ask Respondents for clarification regarding their submission, if doing so does not change their proposal in any way.

### 5.1 Evaluation Stages

The Township will conduct the evaluation of this RFT in three (3) stages as follows:

#### Stage 1 – RFT Review (pass/fail)

A review will be undertaken to determine if the submitted Tender complies with all the mandatory requirements (inclusion of all Appendices and compliance with Appendix A - Submission Requirements and deadline).

Tenders that do not comply with the mandatory requirements shall, subject to the reserved rights of the Township of Minden Hills and the Township's Procurement Policy, be disqualified and not evaluated further.

#### Stage 2 – Pricing (100 points)

Stage 2 will consist of a scoring of the pricing submitted on Appendix F – Price & Delivery Schedule. The evaluation of the price/cost shall be undertaken only after the first stage has been completed. Only those Bidders who move forward from Stage 1 will be scored here.

Each Bidder will receive a percentage of the total possible **100** points allocated to price by dividing the Bidder's price into the lowest tender of the short-listed Bidders.

For example, if the lowest Tender price is \$120.00, that Bidder received 100% of the points ( $120/120 = 100\%$ ), or **100** points. A Bidder who Tenders \$150 receives 80% of the possible points ( $120/150 = 80\%$ ) or **40** points. A Bidder who Tenders \$240 receives 50% of the possible points ( $120/240 = 50\%$ ) or **25** points.

Respondents should be aware that this is a "gated process". Submissions will be initially evaluated on non-price based criteria first. From there, the highest scoring submissions will be chosen to have their pricing evaluated in order to arrive at a total aggregate score for the best solutions.

#### Stage 3 – References (Pass/Fail)

Stage 3 may consist of the Township verifying references and experience of the preferred bidder.

At this stage, the Director of Public Works or designate may verify as many references provided by the preferred Bidder as provided on Appendix B as is deemed appropriate and

such references may be conducted via email, telephone, and/or in-person as the Director of Public Works may determine in his sole discretion.

References will be assessed on a pass/fail basis as to their satisfaction with the previous work performed, and will serve to validate (or not, as the case may be) the evaluation conducted by the Director of Public Works.

## 5.2 Total Evaluation Points Available

Overall, a Respondent may receive a maximum of **100** Evaluation points as follows:

<b>Criteria</b>	<b>Maximum Points</b>
Stage 1 - Compliance with Submission Requirements	Pass/Fail
Stage 2 – Contract Price Evaluation	100
Stage 3 – Reference/Experience Verification	Pass/Fail
<b>Total</b>	<b>100</b>

As a result of this process, the Township may not accept the lowest or any bid.
